Modern Irrevocable Trust

Asset Protection

Absolute!™

★ Be sure to closely read the bullets at the bottom of this one-page Slick. Call with any Questions or Requests. ★

Protect Your Assets . . . Or Risk Losing Them . . .

Half the battle of wealth accumulation is earning it. The other half is hanging on to it. The overwhelming majority of our working population is **completely open to lawsuits and judgments because they are not properly protected**. Can you afford to lose everything you own if you get sued and lose the case? Can you afford to have your future earnings attached and lien-ed because someone hired a better attorney? You purchase life insurance in case you die, but what about a little peace of mind while you're living and earning? The average person will earn \$1 million or more in their lifetime. Professionals can earn many times that.

▶ Yet, you could suffer one or more common setbacks that continue to "reset the clock." **Setbacks** such as divorce judgments, inheritance taxes, legal fees, liens, and frivolous lawsuits can derail the best of plans and ruin the most honest people overnight.

You could avoid all these pitfalls by doing what the rich do. Acquire an up-to-date **Modern Irrevocable Trust** [hereinafter known as **M.I.T.**] that is armed with the **best Spendthrift** protection available today.

Asset Protection for Hundreds of Years . . .

Irrevocable Trusts are older than the United States. Originally designed in the 1530's to protect the wealth of European nobility, they remain a financial fortress for those families worldwide –to this very day. Their assets remain "**un-pierced**," "unharm-ed" and instantly protected. Unlike weaker, less protective trusts which you may have heard of (AB-trusts, Living trusts, dynasty trusts, generation skipping trusts, charitable remainder trusts,

▶ revocable business trusts, and personal trusts, etc.). Attorney Cooper's signature **M.I.T.'s** remain an immovable legal wall between you and anyone who wants your assets or livelihood. They are used to prevent courts, creditors, predators, governments, and other agencies from transferring, levying, or gaining access to the assets within **your M.I.T.**

Absolute Protection . . .

Your M.I.T. will be built upon the very best modern trust laws of the leading States' Trust Act laws and incorporates them into the language of **Your M.I.T.**, which will provide you an up-to-date superior asset protection entity; for example, **your M.I.T.** will provide more protection than a Limited

▶ Liability Company ("LLC"), a Corporation, a Partnership, or even an Offshore entity. No other entity or structure has all the advantages of **your M.I.T.**, or can compare with the functions, operations, compliance or ease of management that **your M.I.T.** will provide.

"M.I.T-TRUST" is Better and More Affordable . . .

Cooper has personally and carefully reviewed many Irrevocable Trusts created by large and prestigious Law firms and Financial Planning firms. The standard price these firms charge to provide you a standard Irrevocable Trust [...often based on 'boilerplate'] is in the **\$25k to \$30k** range. Yet, many of these Irrevocable Trusts - I reviewed were fraught

▶ with obsolete trust laws -that are no longer enforceable [i.e., worthless Paper]. Irrevocable Trusts are expensive because the Rich are those that have them. An **M.I.T.** provides the best protection of your assets! **My standard price for a modern irrevocable trust** is **\$10k** and comes w/ three free hours of expert **M.I.T.** consultation.

Consider the following . . .

You can be sued for anything at any time. You don't have to be 'in the wrong' ...or 'guilty' of anything. The courts are overwhelmed with people defending themselves against baseless claims and greedy, asset-seeking creditors and predators. Even if you don't have a lot of assets to protect today, a lien can be placed against you any time, thus ensuring that you

▶ remain **financially-handicapped until you pay the lien. It will follow you wherever you go.** Civil judgments can lead to criminal charges (often when you cannot pay) and that means potential incarceration. If you are a professional, celebrity, high-income earner, or well known in your community, your chances of being sued increase exponentially.

Peruse the following . . . if there is no 'fraud':

- A judge cannot issue a turn-over order against your **M.I.T.**, to satisfy any claim or judgment
- **Your M.I.T.** can instantly protect your assets making creditors and predators unable to access any of the **M.I.T.** assets.
- **Your M.I.T.** can enjoy the ability to pay no income tax and defer taxes for a thousand years.
- Every aspect of **your M.I.T.** will be based squarely on legal statutes and shall be lawful and in full compliance with the Internal Revenue Code.
- There is no operation of law permitted against **your M.I.T.** when legally and properly constructed
- Generally, funds or endowments put into **your M.I.T.** will have no tax consequences to the party contributing the funds or endowments
- The Trust Protector of **your M.I.T.** is assured that the Trustee will behave with fiduciary responsibility
- **Your** individual copyright protected **M.I.T.** will have a funding mechanism to allow many capital gains to compound and accumulate tax-free
- **Your M.I.T.** does not need to be registered with a state
- No one will know what is in your trust, except **you as Trust Protector**
- Trust Protector can now be a Beneficiary of **your M.I.T.**

MIT-TRUSTS come in a Leather 3-Ring Binder with Zipper Closure All Around . . .

Lots of Flat File Pockets, Card Sleeves, Nice Pen & Pencil, and a Pad Holder for 3-ring Notepaper Pad . . .
